--	--

Interim Conditions of Approval:

1. This is a Provisional Certificate of Approval only and the final Certificate of Approval may contain extra conditions or deletions from this Provisional Certificate.
2. Measurements indicated on the display of the pattern are approved for trade use. The markings on the tape are not intended for trade use and the instrument must display "TAPE MARKINGS ARE NOT LEGAL FOR TRADE USE" or similar wording when instrument is powered on.
3. The verification and subsequent certifications of the instrument must be carried out by Accredited Persons who are accredited for this particular type of instruments under the Weights and Measures Act 1987 Section 30A or by an Inspector of Weights and Measures.
4. Trading Standards reserves the right to examine any instrument or component of an instrument purporting to comply with this approval.
5. Instruments are only approved for use of determination of the linear dimensions of rectangular box-shaped objects and for the calculation of volume of the item and/or "dimensional weight" value, for the purposes of determining freight or postal charges.

Metrological Markings:

Instruments carry the following markings:

Manufacturer's mark or name written in full:

Model designation.....

Serial number of the instrument.....

Year of manufacture.....

Pattern approval number **TS 2151**

Maximum dimensions for each axis Max..... cm

Minimum dimensions for each axis Min cm

Scale interval d = cm

Sealing Provision:

See below photo.

Mark of Verification:

The adhesive destructible label used for securing the tape module must carry the Mark of Verification. Removal of the seal deems the instrument not verified.
